We got the Neksia edger from Essilor Instruments about four years ago, and I must say it is the best purchase I have made. The service from Essilor Instruments has been phenomenal. They have taken care of the instrument, service and training of the staff in the best possible way. Whenever we had a problem, they were always there to help us out.

The Kappa edges glass, CR39, hi-index and polycarbonate lenses. An optional polishing wheel can produce a polished lens edge. The system operates with a direct water hookup or a recirculating pump. Wheel maintenance is automatic, reducing operator skill level. Using a cleaning disk, Kappa controls the timing and pressure for consistent results.

## **Essilor Gerber Kappa Lens Edger - Vision Equipment Inc.**

In the Kappa Edger, probes map the contours of both surfaces to determine lens curve, edge thickness and to calculate ideal bevel or groove placement. Upon completion of lens mapping, a 3D representation of the finished bevel or groove is shown on the screen, allowing the user to view its position.
