CALIBRATION

ISO/IEC 17025:2005 specifies the general requirements for the competence to carry out tests and/or calibrations, including sampling. It covers testing and calibration performed using standard methods, non-standard methods, and laboratory-developed methods. It is applicable to all organizations performing tests and/or calibrations.

By Trace McInturff, A2LA Senior Director, Accreditation Services
ISO/IEC 17025:2017 was approved and released on November
29, 2017. As previously determined, ILAC (as well as the regional
bodies APLAC and IAAC) have mandated a 3-year
implementation for all laboratories to become compliant with the
new standard.
