It is basically a search engine for that lets you search from more than 466 billion pages on the internet for the obsolete books for free, especially for historical and academic books.

Pharmacology Case Studies

Pharmacology can be applied within clinical sciences. Clinical pharmacology is the basic science of pharmacology focusing on the application of pharmacological principles and methods in the medical clinic and towards patient care and outcomes. [citation needed] An example of this is posology, which is the study of how medicines are dosed.[citation needed]

Ethnopharmacology, as a specifically designated field of research, has a relatively short history. The term was first described in 1967 as the title of a book on hallucinogens. It considers the pharmacological activity of plants, fungi and other organisms used in traditional medicine used locally or traditionally as a medicine or to improve health. It applies a unique approach in pharmacology ...
